Task

1. Login

The image shows a login form centered on a light gray background. The form is a white rectangle with a thin gray border. At the top, the word "Login" is written in a bold, black font. Below it is a horizontal line. Then, there are two input fields: "Email" with a red asterisk and "Password" with a red asterisk. Each field has a light gray border and a small shadow. At the bottom of the form is an orange button with the word "Login" in white text.

Objective:

Create a webpage that looks like the screenshot above.

Requirements:

1. **File Setup:**
 - Create an **HTML** document named **login.html**
 - Create a **CSS** file named **login.css**

2. Icons and State

The screenshot shows a login form titled "Login" centered on a light gray background. The form has a white background and a subtle shadow. It contains two input fields: "Email" and "Password". The "Email" field has a red asterisk and an envelope icon, with a placeholder text "example: konstantin.dankov@gmail.com". The "Password" field has a red asterisk and a key icon, with a placeholder text "minimum 6 characters, letters and numbers, at least 1 special character". Below the fields is an orange "Login" button.

Objective:

Create a webpage that looks like the screenshot above.

Requirements:

2. **File Setup:**
 - Create an **HTML** document named **icons-and-state.html**
 - Create a **CSS** file named **icons-and-state.css**

3. Flexbox Responsive

The screenshot shows a subscription form centered on a light gray background. The form has a white background and a subtle shadow. It contains two input fields: "Name" and "Email Address". To the right of the fields is an orange "Subscribe" button.

Objective:

Create a webpage that looks like the screenshot above.

Requirements:

1. File Setup:

- Create an **HTML** document named **flexbox-responsive.html**
- Create a **CSS** file named **flexbox-responsive.css**

4. Floating Labels

The screenshot shows a login form titled "Login" centered on a light gray background. The form has a white background and a thin gray border. It contains two input fields: "Email" and "Password". The "Email" field has a placeholder text "example: john.doe@gmail.com". The "Password" field has a placeholder text "minimum 6 characters, letters and numbers, at least 1 special character". Below the input fields is a gray button labeled "Login".

Objective:

Create a webpage that looks like the screenshot above.

Requirements:

1. **File Setup:**
 - Create an **HTML** document named **floating-labels.html**
 - Create a **CSS** file named **floating-labels.css**

5. Registration

The screenshot shows a registration form titled "Registration" centered on a light gray background. The form has a white background and a thin gray border. It is divided into two sections: "Login information" and "Additional information". The "Login information" section contains two input fields: "Email" and "Password". The "Email" field has a placeholder text "example: john.doe@gmail.com". The "Password" field has a placeholder text "minimum 6 characters, letters and numbers, at least 1 special character". The "Additional information" section contains a "Date of Birth" input field with a placeholder text "mm / dd / yyyy" and a calendar icon. Below the input fields is a gray button labeled "Login".

Objective:

Create a webpage that looks like the screenshot above.

Requirements:

1. **File Setup:**
 - Create an **HTML** document named **registration.html**
 - Create a **CSS** file named **registration.css**

6. Custom checkbox and radio

For full screenshot check the screenshot.png file in the folder for the task

Objective:

Create a webpage that looks like the screenshot above.

Requirements:

1. **File Setup:**
 - Create an **HTML** document named **custom-checkbox-and-radio.html**
 - Create a **CSS** file named **custom-checkbox-and-radio.css**

7. Layout Horizontal Section – No wrapper

For full screenshot check the *screenshot.png* file in the folder for the task

Objective:

Create a webpage that looks like the screenshot above.

Requirements:

1. **File Setup:**
 - Create an **HTML** document named **layout-horizontal-section-no-wrapper.html**
 - Create a **CSS** file named **layout-horizontal-section-no-wrapper.css**
2. **Styling**
 - Do not use an additional HTML element to achieve the centering. Use padding, vw and calc() to get the same effect with only 1 element instead of two.

8. Contact form

The image shows a contact form titled "Contact" centered on a light gray background. The form is a white card with a thin gray border. It contains the following elements:

- Title:** "Contact" in bold black text.
- Your Name:** A text input field with a placeholder "First and Last name is enough".
- Email:** A text input field with a placeholder "example: john.doe@gmail.com".
- Subject:** A text input field with a placeholder "What is this about?".
- Message:** A text area with a placeholder "Let us know what you need".
- Send Button:** A gray button with the text "Send" in bold black text.
